Summary

Computer Science student proficient in Full Stack Development, skilled in building dynamic, interactive websites using the latest technologies.

Skills

- **Programming Languages:** C++, JavaScript
- **Tools & Platforms:** Git, GitHub, VS Code, Firebase, Postman
- **Technologies:** React.js, MongoDB, TypeScript, Tailwind, MySQL, Material UI, Node.js
- **Beginner-Level:** Redis, AWS, Next.js, Go Lang(Backend)

Education

IILM College of Engineering and Technologies

July 2021 - June 2025

Bachelor of Technology in Computer Science

CGPA: 6.5

Govt Higher Secondary School Kalsian

April 2020 - March 2021

Senior Secondary Education

Percentage: 94%

Projects

Course Bit

Live Link: Course Bit Project

- Developed a course-selling app with educator and user interfaces.
- Integrated payment gateway (Razorpay) and built an interactive admin dashboard.
- Implemented light/dark modes, responsive design, and data analytics using charts.
- Utilized React hooks for efficient state management and performance optimization.
- Built a creative and interactive course-selling website using React.js and Node.js.

Xcrypto

GitHub Link: Xcrypto Project

- Developed a React.js-based platform where users stay updated with the crypto market
- Implemented pagination for efficient data navigation.
- Incorporated graph charts for data analysis

Cloudify

Live Link: Cloudify Project

- Social media app where users can create accounts, post, and interact with others
- Enabled features for photo uploads, comments, and following other users.
- Tech stack: React.js, Material UI, Node.js backend

Experience

3W Private Limited

Full Stack Developer Intern

March 2024 - May 2024

- Implemented frontend functionality for adding bank accounts
- Integrated APIs for seamless interaction between frontend and backend.

Code Soft

Web Developer Intern

Jan 2024 - Feb 2024

- Constructed an alert component for specific error details.
- Gained experience in API integration and frontend-backend collaboration

Activities

- Earned LeetCode badges; solved 150+ problems.
- Active member of the IILM Coding Club.
- Achieved 80% in AMCAT online coding test.

Certifications

- Web Technology (Infosys Springboard)
- React.js (Infosys Springboard)
